ET PASO, Jan. 10 1899.

After having spent ten years suffering, the doctors finally confessed they were unable to cure me or do me good. I moved to Texas in search of health but found it not. One day, while suffering intensely, a lady brought to me a bottle of Dr. J. H. McLean's Strengthening Cordial and Blood Purifier and insisted that I take it. Without faith I began to take the medicine, and to my great surprise that before I had taken one half of a 50-cent bottle, I began to improve. After taking four or five bottles I became well.

## It's Easy To Take

Thin, pale, anæmic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food.

## SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia. SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way.

We have known persons to gain a pound a day while taking it.

Young Women

The entry into womanhood is a critical time for a girl. Little menstrual disorders started at that time soon grow into fatal complications. That female troubles are filling graveyards proves this. Wine of Cardui establishes a regular and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Many women, young and old, owe their lives to Wine of Cardui. There is nothing like it to give women freedom from pain and to fit young women for every duty of life. \$1.00 bottles at druggists.

Miss Della M. Strayer, Tully, Kan. "I have suffered untold pain at menstrual periods for a long time, was nervous, had no appetite, and lost interest in everything, in fact was miserable. I have taken four bottles of Wine of Cardui, with Theodor's Black-Draught, when needed, and today I am entirely cured. I cannot express the thanks I feel for what you have done for me."

Special to the News.

Well Mr. Editor news scarce this time. Excuse me for neglecting you item last week. H. Mitchell and Miss Ellen Huddleston were happily married Sunday before Christmas.

H. Coppinger's child continues to be very ill.

Lon Layne narrowly escaped death in the mines last Thursday. He charged a hole and touched it off just as all the men went down to dinner and after the shot fired Lon went back to see what it had done but it had done nothing but blown tamping. Lon then took his tamping stick and ran it in the hole to see if the tamping was out and at that instant it fired again and the result was his right hand was severely wounded, his face was bruised and cut very badly, a cut through the left eyelid, a cut on the nose, a cut through the upper lip, his eyes nearly put out by the ore, and there is not a sound place on face large enough to cover with a penny. One finger is broken and his legs are hurt and he is almost a total wreck but will recover. Lon said frozen powder was the cause. Everyone is very careful now about how they charge and handle powder and will continue so for a few days and then they will be as careless as ever. Lon says he has something to tell everyone who works in the mines.

Uncle Jimmie Layne said if he was shooting in the mines he would shoot today and go back tomorrow to see what the shot had done. That's good logic but it won't go here.

John Butler was arrested at the mines yesterday.

Wonder what has become of Echo and Caroline Chapel.

Well boy, since you have had such a hard time trying to kill that owl I tell you how to do it without any trouble. The next time you see him in a tree walk up to him very close and then stop and draw his attention and when he gets his eyes set on yours then walk around the tree and he will keep his eyes on you all the time and he won't turn his head back at all but will keep on looking at you and all the time he is twisting his head and when you have walked around the tree three or four times he will have twisted his head off and it will fall on the ground and then you can pick it up and it won't be long till his body will fall too. That is the easiest way I ever tried to kill an owl. Try it and be convinced.

Some one was wanting to know through the News what was the real name of Dofetchit. If anyone wants to know please send a 75-cent stamp to help pay postage and packing.

This is me and my wife but don't tell her about it. "Jennie and I are out one more and we had a tearing fight. We j-wed and talked and slashed around and Oh I tell you it was a sight. I kinder wish we hadn't fought, it seems a little queer that we can't live like other folks and be contented here, but Jennie has a temper, sir, and I've a temper too, and when we commence to fight we fight our battle through. In this our latest little fuss she fairly accosted me down, she grabbed me by my curly locks and tore them from my crown. She thrashed me with a hickory switch it might be called a pole, and then she cracked me on the head with twenty lumps of coal. She took me by my Roman nose, the handle of my head. She wrung and twisted it about Oh! thunder, how it bled. She said I was an ugly man, a mean and lying cheat, and up her foot went sudden like and I went off my seat. "Now Charles," said she "just sit you there and listen while I talk. I'll show you sir that I am boss and make you toe the chalk. You're a pretty man of high and moral tone to lounge around them luman stores and leave me here alone." I will tell you the rest some other time.
